The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

"STAFFORD-TONES"

PATENTED NOV 7, 1922

A STAFFORD-TONE is an original copper halftone, with a *nickel face.* It prints better and wears longer than other halftones. Here are some reasons for its superiority:

Up till now, halftones have been made of copper, a metal which has some distinct failings for this use. Copper is soft. Consequently, copper halftones wear out quickly. They are very easily scratched. Some printing inks contain acids which corrode and eat copper. A used halftone in storage often developes corroded or "soft" spots which ruin it.

Nickle is hard—much harder than copper. With their nickel face, STAFFORD-TONES wear twice as long as ordinary halftones. They do not scratch nearly as easily. The acids in printing ink do not affect nickel, and STAFFORD-TONES cannot be corroded.

As a result of their nickel face, therefore, you can expect greater service from STAFFORD-TONES than from copper halftones. They will stand up better for longer runs; or, if you do not print large editions, you can use the same STAFFORD-TONE several times—for instance, in your catalog, then in a folder, later in a broadside, and finally in a new edition of the catalog. And when you store away a STAFFORD-TONE in good condition, you can *depend* on finding it in the same condition when you want to use it again.

If they had no other point of superiority, their longer wear would put STAFFORD-TONES a long step ahead of ordinary halftones. But equally important is the fact that STAFFORD-TONES print better, due to the fact that nickel makes a better printing surface than copper.

We applied for patents, and our every claim was allowed (Nov. 7, 1922). We are so proud of these new halftones that we gave them our own name—STAFFORD-TONES. The process is exclusive, and genuine STAFFORD-TONES—the perfect printing plates—may be secured *only* from us.

When a better product is placed on the market, it is usual to charge more—but not STAFFORD-TONES. They are sold at exactly the same price as we have been charging for copper halftones.

Ask us further questions, or let us estimate on your next job. But please remember that the best way to find out how STAFFORD-TONES improve your advertising, and cut the cost, is to *use* them.

Most Every Kind of Business Has Need for All or Part of Polk Service

MAILING LISTS

Whether you are Retailer, Jobber or Manufacturer you need, at some time or other, a mailing list—a GOOD mailing list. Such a list of possible customers properly worked and developed will pay its own way—and then some.

Hundreds of firms use Polk's Red Seal Mailing Lists to reduce waste of salesmen's time and effort—and to get their share of the business from towns off the beaten path or where it is too costly to travel a man. Let us suggest or compile to your order some lists which will produce for you.

MULTIGRAPH SERVICE

If you are Retailer, Jobber or Manufacturer, you occasionally, frequently, or regularly have need for a multigraph service—dependable service. Ample mechanical equipment and expert workmanship and supervision make Polk facilities unsurpassed. Large numbers of business establishments use this service in conjunction with other parts of our service; others use the multigraph service only. Anything you wish duplicated in quantities—letters, post-cards, other forms—produced by Multigraph, Mimeograph or Ditto.

Let us handle your next order. It will be given that kind of attention which will hold and increase your patronage.

ADDRESSING AND MAILING

Retailer, Jobber, Manufacturer—all need at times extra or regular assistance in addressing and mailing work. Hundreds of customers use this Polk service to assure accuracy and promptness in getting letters and other mail campaigns off on scheduled time.

Many customers like our Economy Plan. This Plan includes addressing to Polk lists, multigraphing, filling-in and signing letters, sealing and mailing at a fixed rate per thousand in quantities of one thousand or more. Speed is sometimes a factor in mail work. Polk's large organization guarantees speed without sacrificing accuracy. Let Polk do it.

SPECIAL SERVICE

Polk's is a business organization serving all other business organizations. Everything we do from publishing this and other Directories and Gazetteers to compiling Mailing Lists and Automotive Statistics is done to make it easy for business men to do business with one another.

Our Motor List Division specializes in automobile statistics and in motor car owner lists. Because they have the buying power, automobile owners are select prospects for many kinds of merchandise.
